

LAPxv8 by Lyceum

Startup Guide

What is LAPxv8?

LAPxv8 is a specialized software designed for automated data extraction, processing, and integration with Lyceum's testing framework. It works exclusively with AudioPrecision APx500 version 8.0 software, enabling seamless test data handling.

Compatibility

LAPxv8 is ONLY compatible with AudioPrecision APx500 version 8.0. Ensure you have this version installed before using LAPxv8.

Required Environment Variables

For Auto-Login:

- LYCEUM_LOGIN_USERNAME
- LYCEUM_LOGIN_PASSWORD

These environment variables should be set for auto-populating login credentials when launching LAPxv8.

For Application Functionality:

- LYCEUM_APP_KEY = 'Lyceum2024'

This key must be set for LAPxv8 to function properly.

For AI Aristotle Feature:

- ANTHROPIC_API_KEY

To enable the AI Aristotle feature, you must obtain an Anthropic API key from <https://www.anthropic.com/> and set it as an environment variable.

Final Notes

Ensure that all required environment variables are properly set before launching LAPxv8. If you encounter any issues, please refer to the documentation or contact Lyceum support.
